

Please Think About It

Moody Blues

(Mike Pinder) There in your eyes, I see That you want to be free There by your side, I'll be Please think about it
(Think about it) If you still want me I need your love Please think about it (Think about it) I'm no good without
it (Think about it) I can't live without it Give me your love Oh no Never leave my side Baby please decide I'm
in love with you I hope you want me too Don't go Say there's nothing wrong Stay where you belong I'll be
good to you Instrumental That's all I wanna do Please think about it (Think about it) I'm no good without it
(Think about it) Please think about it (Think about it) I need your love Give me your love I can't live without it
Oh no Never leave my side Baby please decide I'm in love with you I hope you want me, too Don't go Say
there's nothing wrong Stay where you belong I'll be good to you So, if you have to go That's all I wanna do I
won't stand in your way But, if you decide to stay I will be your guide Please think about it (Think about it) I'm
no good without it (Think about it) I need your love Please think about it (Think about it) Give me your love I
can't live without it Oh no Don't go *****
