

# Terrified

## Across the Viaduct

Here in this town, safe and guarded  
We call it home, a feeling that we share  
Now leave this place, clinging to hope  
    In this midnight prayer  
If we hold our breath, float beyond this  
    We'll be reborn, I will carry us home  
Are you still alive? Are you scared inside?  
    Providence is blind when you're terrified  
Are you still alive? Are you scared inside?  
    When we've reached the end of the road  
        I will carry us home  
    Oh no, if all our sin was only a hope  
        And meaningless and true  
    Now will I expire holding the world  
        In safety for you  
    If we make it through and I can save you  
    With this heart I know, I will carry us home  
    Are you still alive? Are you scared inside?  
    Providence is blind when you're terrified  
    Are you still alive? Are you scared inside?  
    When we've reached the end of the road  
        (Reached the end of the road)  
        I will carry us home  
    And now I'm so far away from you  
        Will I be making any difference  
        After leaving you all alone?  
    And now I'm so far away from home  
        Can I justify my actions  
    After leaving you here in this town?  
        Safe and guarded, we call it home  
        A feeling that we shared  
    Are you still alive? Are you scared inside?  
    Providence is blind when you're terrified  
    Are you still alive? If you're scared inside  
        (I will carry you home)  
        I will carry us home  
    Are you still alive? Are you scared inside?  
    Providence is blind when you're terrified  
    Are you still alive? Are you scared inside?

When we've reached the end of the road  
(Reached the end of the road)  
When we've reached the end of the road  
(Reached the end of the road)  
I will carry us home, carry us home
