

On Letting Go

Hoops

I looked over the garden wall
This whole circus of cellphone calls
Till then you found me
Run weary and out of practice
High strung in a basement bar you came out with us I still remember the clothes you wore
And your ??? your eyes of ??? but you know
I don't even care I don't wanna know
If I'm ??? and I miss you so I meant I don't look back when I told you
'i don't write love songs'
I can hear your accent and darling it kills me
That our time is all gone
I still remember the walk we took and the bouquet on the subway platform
But I don't even care I don't wanna know
How you changed your hair, where this letter goes
I don't even care I don't wanna know
I Can't stand the part of letting go
