Can't Take It With You

Social Distortion

I'll tell you something, baby, that's a fact
Never see a horse, with a luggage rack
All your money, your hard earned pay
It don't mean shit, bloody hell at end of the day
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Oh no, you can't take it with you, can't take it with you
Can't take it with you, can't take it with you when you go
As sure as life and the light of day
I'll tell you something, I've heard them say
It don't matter, baby, what you want
Seems we all, we all go back to Mother
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Oh no, you can't take it with you, can't take it with you
Can't take it with you, can't take it with you when you go
Work all your life, you become a slave
There ain't no standing when you're in the grave
Even if it's raining a thousand dollar bills
Think of me, baby, there ain't no mansion on the hill
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Oh no, you can't take it with you, can't take it with you
Can't take it with you, can't take it with you when you go
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you, can't take it with you
Can't take it with you
