

Any Way You Slice It

Kiss

I caught the tail of a hurricane and I've never ever been the same
I went out on a limb, gotcha under my skin, well alright
You got dirt under your fingernails, what I'm thinkin' can land me in jail
Well, you're caught in this trap and you can never go back well, oh no no I know you wanna cross the border
And you know the doctor's orders
Well it's better late than never
Can't stay innocent forever, it's alright, it's alright, yeah Any way you slice it
You know you can't deny it
You're hot under the collar
Ain't your mother's little daughter anymore Ooh, ain't no wolf on the corner, can't keep it in any longer
Well if you're lookin' for bliss, what I got you can't miss, well alright
When it works like a charm, it'll do you no harm
You'll be in Heaven tonight, I know you'll feel alright Any way you slice it
You know you can't deny it
I know what's in your heart
I know what's in your mind Any way you slice it
You know you can't deny it
You're hot under the collar
Ain't your mother's little daughter anymore I know you wanna cross the border
And you know the doctor's orders
Well it's better late than never
Can't stay innocent forever, no, no, no, no Yeah, alright
Well, if I told you once, I told you twice
Just listen, babe, and take my advice
Why settle for seconds when you can have the best
So let me be your king bee, I want your hornet's nest Any way you slice it
You know you can't deny it
I know what's in your heart
I know what's in your mind, yeah Any way you slice it
I know you can't deny it
You're hot under the collar
Ain't your mother's little daughter anymore You know you ain't your mother's little daughter anymore
