They Don't Know Us

Borgeous

They say were broken
But were just broke enough
They say were all fucked up
Just fucked up enough

We're not lost
We're all just wonderers
Turn the page to uncover
Yeah cause they don't see the way we dance
And they don't see the way we love
And they don't see the way we lose ourselves in the moment
They don't know us

They don't know

They don't know us

They say we losing sleep
That we're caught in a daydream
But were just free-falling
Like Glitter on the concrete

We're not lost
We're all just wonderers
In the light we all discover
Yeah cause they don't see the way we dance
And they don't see the way we love
And they don't see the way we lose ourselves in the moment
They don't know us

They don't know

They don't know us
