

Hard To Breathe

[Nikki Flores](#)

feel the adrenaline my hearts beating
i need a doctor cos im getting sick of love
im running short of breathe with every step
in need of oxygen to run away from this
i face the demons that take me to hell and back
im getting heart attacks
took me a heart attack
im counting on you cos i need you here to save me
if my heart heals
how am i suppose to breathe
when all my heart does is bleed
your too stupid to see
your making it hard for me
how am i suppose to breathe
your too stupid to see
what your doing to me
your making it hard to breathe
your making it hard to breathe
it isn't that hard to see
my chest is caving in
someone help me
i need some life support
cant take this anymore
loving with caution
cos my hearts so weak
i been a victim of love
and your the criminal
i counting on you but you
refused to save me
if my heart heals

how am i suppose to breathe
when all my heart does is bleed
your too stupid to see
your making it hard for me
(so hard to breathe)
how am i suppose to breathe
when your too stupid to see
what your doing to me

your making it hard to breathe
so hard to breathe
your making it hard to breathe
it isn't that hard to see
love is blind but i cant see
a place for you and me
i cant go on without you
babyyyyy
how am i suppose to breathe
when all my heart does is bleed
your too stupid to see
your making it hard for me
(so hard for me)
how am i suppose to breathe
when your too stupid to see
what your doing to me
your making it hard to breathe
how am i suppose to breathe
when all my heart does is bleed
your too stupid to see
your making it hard for me
so hard to breathe
