

World Gone Mad!

Suicidal Tendencies

The whole world's going insane
The whole world's going insane
The whole world's going insane
Has the whole world gone insane? I'm angry... and I don't know why
I'm pissed off... and screaming at the sky
Found guilty of... being so confused
Plead guilty... of being so confused
I'm watching... but I don't believe
I'm waiting... for some kinda of relief
This ignorance... so easily copped.
This sickness... it's gotta be stopped World gone mad! World gone mad! World gone mad! The whole world's
going insane
The whole world's going insane
The whole world's going insane
Has the whole world gone insane?
Why you laughing? - this is not a joke!
They're trying to blind us - with all the smoke
Leading the people - into the mouth of jaws
It's an illusion, like the Wizard of Oz
Defiance- in the last degree
Breeds reliance- on their insanity
I'm tripped out... you can believe such crap
Why can't you see you're caught in they're trap! World gone mad! World gone mad! World gone mad! They're
selling us insanity
We're paying with our apathy
This kind of mental bankruptcy
This sickness is their fantasy
But I'm fighting for my sanity
This won't be my reality
I won't be part of this tragedy
Their perversion is not technology
World gone mad! World gone mad! World gone mad! Plastic surgery, a la carte
Can't photo shop, your broken heart
Can't undo, the lies you post
Can't unfriend, the emotions that hurt the most
We've all lost it, it's so evident
For likes on waste book it's all relevant
How pathetic... fake reality
Just makes me wanna smash it, that damn tv World gone mad! World gone mad! World gone mad!

They're selling us insanity
World gone mad! World gone mad! World gone mad!
We're paying with our apathyWorld gone mad!
The whole world's going insane
Has the whole world gone insane?
