

# Tripled Manic State

Cky

An enhancement of emotions by your primitive regime  
Experiments procede to exploit my silent screaming  
Medical advances like to ease the human mind  
A glitch in operations multiplied my anger three more times  
Tripled Manic State  
Resonating through me  
Doctors horrified, all still unsatisfied  
Poison as a cure, the failure to control me  
Tripled Manic State  
Outrageously created for me  
Skin is now a prison and I'm never to be free

Immobilized in body and I'm overflowing energy  
The agony is understated, no one understands  
My tripled manic state is multiplying all my violent plans  
Tripled Manic State  
Resonating through me  
Doctors horrified, all still unsatisfied  
Poison as a cure, the failure to control me  
Tripled Manic State  
Outrageously created for me  
The agony is understated, no one understands  
My tripled manic state is multiplying all my violent plans
