Rock the Night

Hellsongs

Dance with me, dance with me
C'mon, c'mon
Rock with me, rock with me
C'mon, c'monDance with me, dance with me
Ride the rhythm
And rock with me, rock with me
C'mon, c'monLove, love is on our side, no, you can't deny
Something that's just indestructible
Break down these walls, we'll be standing tall
Together you know we're inseparableSo bring it on, bring it all on
I'll take it on, take it all on
Do you know, do you know?
Nothing will be stopping this tonightYou, you are the reason I'm still high
Let's take a chance and rock the night
Let's not escape the fact thatI want you and you want me
Maybe you should rock the night with me
Rock the night with me
Rock the night with meLet's read between the lines, take a chance to find
Something different on the other side
It's clear to me, your eyes wanna see
Something closer that lies underneathSo bring it on, bring it all on
I'll take it on, take it all on
Do you know, do you know?
Nothing will be stopping this tonightYou, you are the reason I'm still high
Let's take a chance and rock the night
Let's not escape the fact thatI want you and you want me
Maybe you should rock the night with me
Rock the night with me
Rock the night with meSo bring it on, bring it all on
I'll take it on, take it all on
Do you know, do you know?
Nothing will be stopping this tonightYou, you are the reason I'm still high
Let's take a chance and rock the night
Let's not escape the fact thatI want you and you want me
Maybe you should rock the night with me
Rock the night with me
Rock the night with meDance with me, dance with me
C'mon, c'mon
Rock with me, rock with me

C'mon, c'monDance with me, dance with me
Ride the rhythm
And rock with me, rock with me
C'mon, c'monDance with me, dance with me
C'mon, c'mon
Rock with me, rock with me
C'mon, c'monDance with me, dance with me
Ride the rhythm
And rock with me, rock with me
C'mon, c'monDance with me, dance with me
C'mon, c'mon
Rock with me, rock with me
C'mon, c'monDance with me, dance with me
Ride the rhythm
And rock with me, rock with me
C'mon, c'mon
