Heart Out (WoodysProduce Remix)

The 1975

I'm rushing in a small town
I forgot to call you
Running low on know how
This beats made for two
'Cause I remember that I like you
No matter what I found
She said it's nice to have your friends round
We're watching a television with no soundIt's just you and I tonight
Why don't you figure my heart out
It's just you and I tonight
Why don't you figure my heart outPush your lack of chest out look at my hair
Gotta love the way you love yourself
Your obsession with Rocks and Brown
And fucking the whole towns
A reflection on your mental health
'Cause I remembered when I found you
Much younger than you are now
Once it started I am friend zone
You created a television in your mouthIt's just you and I tonight
Why don't you figure my heart out
It's just you and I tonight
Why don't you figure my heart outYou've got something to say
Why don't speak it out loud
Instead of living in your head
It's always to say why don't you take your heart out
Instead of living in your headIt's just you and I tonight
Why don't you figure my heart out
It's just you and I tonight
Why don't you figure my heart out
