

# Sugar

## Ladytron

If I give you sugar, will you give me  
Something elusive and temporary  
If I give you sugar, will you give me  
Something elusive and temporary  
We got a signal to leave you alone  
[Incomprehensible] leave you, [Incomprehensible] find you  
If I give you sugar, will you give me  
Something elusive and temporary  
If I give you sugar, will you give me  
Something elusive and temporary  
If I give you sugar, will you give me  
Something elusive and temporary  
We got a signal to leave you alone  
[Incomprehensible] leave you, [Incomprehensible] find you  
If I give you sugar, will you give me  
Something elusive and temporary  
If I give you sugar, will you give me  
Something elusive and temporary  
If I give you sugar, will you give me  
Something elusive and temporary  
We got a signal to leave you alone  
[Incomprehensible] leave you, [Incomprehensible] find you  
If I give you sugar, will you give me  
Something elusive and temporary
