Receive

Poor Old Lu

As I look back, 'Receive' is one of the most complete and well-rounded songs we had. Unfortunately, we only played a handful of shows after "8th Wonder" was released, so it never became a huge concert hit that it normally would've been. The times that we were able to play it were great. I've also felt that 'Receive' is one the most representational songs for the typical "Lu" sound!This is another one of those songs that can really be wrapped up in the chorus, that is, "receive". Through our sadness, depression, angst, whining, and whatever, we really need to just "receive" Christ. Is that to say that some of these issues (that is depression, or anger) are not real? No, but Christ needs to be first and the constant problem solver in all things. When we go to Him, we find there is so much joy and peace that He is desiring to fill us with. Amen.tell the jury
