Causers Of This

Toro Y Moi

Maybe she really knew who I was
My speech was different
and I came across just fine
I bet you really knew who I was
My speech was different
but I came across just fine

And I told her never to be the one
who doesn't want to speak
It's cuz I've been alone
There is a life on wheels (?)
It's cuz I've been alone
This is how I feel
