

I Could Never Miss You (More Than I Do)

Lulu

Finders not keepers,
and all that's left is just reminders,
love in pieces,
the debris and the dust of memories,
that linger so long,
of heartaches that keep hanging on,
just wondering where it all went wrong
and whether i can start anew,
oh but i could never miss you more than i do.

Loving you like this
oh i could never miss
you more than i do,
Loving you like this
oh i could never miss
you more than i do.

Beggars can't be choosers,
i've had my share of bagging nothing,
but losers,
but if i searched the whole world over,
from pillar to post,
your the one that i need the most,
if i combed this land from coast to coast
who would take the place of you,
cause i could never miss you more than i do.

Loving you like this
oh i could never miss
you more than i do,
No more than i do baby
Loving you like this
oh i could never miss
you more than i do.

I couldn't love you any better,
i couldn't love you any more,
cause i spend each and every second
each and every hour hoping you'll be at my door.

Loving you like this
oh i could never miss
you more than i do,
More than i do baby
Loving you like this
oh i could never miss
you more than i do.

Loving you like this
oh i could never miss
you more than i do,
no more baby
Loving you like this
oh i could never miss
you more than i do.
