

# The Morning

## The Weeknd

Listen x2

(Verse 1)

From the morning to the evening  
Complaints from the tenants  
Got the walls kickin like they six months pregnant  
Drinking Aliz with our cereal for breakfast  
Girls calling cabs at dawn quarter to 7:00  
Skies getting cold  
flying from the north  
rockin with our city like a sold out show  
House full of hoes that specialize into hoein  
Make that money rain as they takin off they clothes  
Order plane tickets  
Cali is the mission  
Visit every month like I'm split life living  
Let the world listen if a haters caught slipping then my ni\*\*as stay tight  
Got my back like pimpin  
Fast life grippin  
Yeah we still tippin  
Codeine cups paint a picture so vivid  
Fakes try to mimic  
Get girls timid  
But behind closed doors they get oh so rigid

(Chorus)

All that money the money is the motive  
All that money the money is the motive  
All that money the money she be foldin  
Girl put in work girl girl put in work  
Girl put in work girl girl put in work  
Girl put in work

(Verse 2)

Push it to the limit  
Push it through the pain  
I push it for the pleasure like the virgin to the game  
A virgin to that money  
A virgin to the fame  
So this my only chance and when I'm over only pray that I flow from the bottom  
Closer to the top  
The higher that I climb

The harder I'ma drop  
These pussy ass ni\*\*as tryna hold on to their credit so I tell them use a debit watch they image start to lessen  
I warned 'em like discretion  
Why these ni\*\*as testing  
Always fu\*\*ing testing  
Why these ni\*\*as testing  
Sh\*t that I got them on straight bar hopping to the music of the ambiance  
Get sh\*t popping  
Zombies of the night  
Ni\*\*as aint talking if they hyping to the crew get it in like pockets  
Downtown loving  
When the moon coming  
Only place to find base heads, and hot women  
(Chorus)  
Better slow down  
She'll feel it in the morning  
Aint the kind of girl you'll be seeing in the morning  
Too damn raw aint no ni\*\*a worth her holding  
Aint no ni\*\*a that she holding man her love is too damn foreign  
(Chorus x2)
