

# Food In the Belly

[Xavier Rudd](#)

So go but be kind  
you have luck on your side  
born into a family with food in their bellies  
and a car for them to drive  
People sleeping on the concrete  
still smile behind their signs  
So go now be happy and be free  
you, you have so much timeIf you go chances are you'll come again  
if you come chances are you'll go  
so be mellow let it flow let it bend  
I'll see you somewhere at the endSo go but be kind  
you have luck on your side  
born into a family with food in their bellies  
and a car for them to drive  
People sleeping on the concrete  
still smile behind their signs  
So go now be happy and be free  
you, you have so much timeIf you go chances are you'll come again  
if you come chances are you'll go  
so be mellow let it flow let it bend  
I'll see you somewhere at the endSo go but be kind  
you have love, love on your side  
born into a family with food in their bellies  
and a car for them to drive  
People sleeping on the concrete  
still smile behind their signs  
so go now be happy and be free  
you, you have so much timeSo go, go but be kind
