

# November Dream

## Terrateya

Good morning world  
Rise and shine  
Good morning life  
What will you bring  
Good morning sky  
Good morning clouds  
Good morning sun  
Good morning me Here I stand  
Yet not alone  
Good morning love  
Is this the day we die  
Can you hear the bombs  
Can you hear the guns If you just close your eyes  
And close your mind  
Where will you be  
Escape this frozen world  
For a second  
And never return  
Stay in your dream  
Within the warmth of your thoughts  
Leave everything behind  
And nothing can harm you anymore Good morning war  
What will you do  
Within seconds  
Weapons will crush  
Metal, life and stone Here I stand  
Yet not alone  
Good morning love  
Is this the day we die  
Can you hear the bombs  
Can you hear the guns Dust covers the land  
Bombs explode  
We will break through  
Just you and me  
Bullets cant harm us anymore  
We will be free When this night is over  
There will be nothing left  
And we wont wake up  
But live in this November Dream
