High Octane Fuel Baby

Ozone Mama

You have arrived out of time,
I could feel you from a million miles
Your innocent look just makes me high
Keep your engines burning now,
let's take a ride through the blood red skies
Sweet hitch-hiker, let your Lovelight shine!Hey baby, high octane fuel lady,
Hot rod girl you're about to blow my mind.I'm a train rollin down the line,
Can you here me passin by?
One step closer to you I am closer to hell.
Hit the dust get outta town,
ain't got no breaks to hold me down
Like a blind man on the dead end street I ride.Hey baby, high octane fuel lady,
Hot rod girl you're about to blow my mind!
I ain't got nothin' but just one doubt,
Will our landing be safe when we hit the ground?
(I am) gonna lose my mind one more time!Hey - Hey - one more time!Guitar![Guitar Solo]The hourglass is floating fast,
I want you to give me your love at last,
Before my time is up I cannot let you go .
Tonite I'm gonna make you mine,
Gently will I lay you down ,
Anytime, anywhere, you can name a place.Hey - baby - you're like a shooting star
Hey - lay me down baby - don't break meHey baby, high octane fuel lady,
Hot rod girl you're about to blow my mind!
Hey baby, high octane fuel lady,
Let's keep it down - down, you lost your mind?
Hey baby, petrol-blooded lady,
You fly so high I just don't wanna die.
I ain't got nothin' but just one doubt,
Will our landing be safe when we hit the ground?
(I am) gonna lose my mind one more time!Lovin'
Keep it comin'
Freewheelin'
Ridin' high.
