

Never Be The Same

Socialburn

Well, she came around
I saw it in her face
Another time, another place
Is what she wanted
So, she let me go
So she could face this world alone
To find out where she belongs
She said, "I'm sorry"
Because I didn't know
What should have happened
Yeah, I didn't know
That I had a chance to say
Please don't go away
'Cause I will never be the same
I will never be the same
Please don't go away
'Cause I will never be the same
I will never be the same without you
Well, She came around
About a year after she was gone
I was passed out in her yard
I couldn't live without her
Just when I thought
I'd taken more than I could stand
Well, she took me by the hand
And she said, "I'm sorry"
Because I didn't know
What should have happened
And I didn't know she was gonna say
Please don't go away
'Cause I will never be the same
I will never be the same
Please don't go away
'Cause I will never be the same
I will never be the same without you, without you
Well, she came around
I saw it in her face
Another time, another place
Is what she wanted

Please don't go away
'Cause I will never be the same
I will never be the same
Please don't go away
'Cause I will never be the same
I will never be the same without you, without you
Without you, without you
