

Epilepsy

Therapy?

I've got a problem
This infernal love
It burns like wire This infernal love
This infernal love
This infernal love
This infernal love I've got a problem
I can't leave you alone
I don't want this This infernal love
This infernal love
This infernal love
This infernal love I've got a problem
This infernal love
It burns like wire This infernal love
This infernal love
This infernal love
This infernal love Love
Love
Love
Love, hey
