

Endless Summer

My Tiger My Timing

Uptown all around
All I want is an endless summer
Yeah yeah
Come down school is out
All I want is an endless summer
Yeah yeah yeah yeahAll the nights when you come undone
You said hold the fear cause you wanna have fun
And I said uptown hear that sound
All I want is an endless summer
Yeah yeah yeah yeahThe world belongs to us tonight
I'll meet you on the road outsideThis *own bring it down
*ll fed up with the rain and thunder
Yeah yeah
Time to turn it round oh oh oh or we're going under
Yeah yeah yeah yeahAll the nights we were having funRemember all the feeling well it's been too long
And I said somehow make it now all I want is an endless summer
Yeah yeah yeah yeahThe world belongs to us tonight
I'll meet you on the road outside
The world belongs to us tonight
I'll meet you on the road outsideThis is the night for it
And I will die trying to prove it
The circumstances fit
And I will dies trying to prove it
This is the night for it
And I will try, try to prove it
The circumstances fit
Yeah yeah yeah yeah
