

Deep Inside

A Protest Against Futility

Need a heart beat
Need release
Get things started
Would you please
Come on sweetheart
On your knees
Turn your gaze up
Work with ease
Find a new way
Down the list
Soothe the tremble
With a kiss
Let's not pretend
We need this

Wrap your body over me
Taste your sweet skin underneath

See that big smile in your eyes
Your sound it never lies
Breathe as one while deep inside
Last sigh enjoy the ride

Slow the tempo
Hear you breathe
Come in closer
Feel the heat
Take in your scent
Won't forget
Free the tension
Right in step
Right at home here
In this depth

I'm falling deeper and flying high
I could not leave her all through the night
You flow right through me
The flesh dissolves
The stage is empty
The curtain falls
