Never Stop

Hilary Duff

Sometimes you feel your world is breaking down
Baby don't stop
And there's trouble everywhere, it's all around
Baby don't stop
'Cause' I'm here to turn the corner with you
When we're together there's nothing that we can't do
You signed my name on your arm
You put so much in my heart
When the darkness rolls in
I'll be there through thick and thin
I want you to know, I want you to know
I'll never stop loving you
I hope that you know wherever you go
I'll never stop loving you
When you're on the road all lonely and blue
Baby please stop
And remember all the things that we've been through
All the good stuff
Like all the notes you wrote to me
And all the things that we believe
People thought that we couldn't be
But we never stopped, no, we never stopped
You signed my name on your arm
You put so much in my heart
When the darkness rolls in

I'll be there through thick and thin
I want you to know, I want you to know
I'll never stop loving you
I hope that you know wherever you go
I'll never stop loving you
We made mistakes along the way
But here we are, here we are
Never stop, never stop, never stop
Never stop, never stop, never stop
Never stop, never stop, never stop
Never stop, never stop, never stop
You signed my name on your arm
You put so much in my heart

When the darkness rolls in
I'll be there through thick and thin
I want you to know, I want you to know
I'll never stop loving you
I hope that you know wherever you go
I'll never stop loving you
I want you to know, I want you to know
I'll never stop loving you
I hope that you know wherever you go
I'll never stop loving you
