

Only One Man

[Donna Summer](#)

You know ladies and gentlemen, please know this
I really love my man and I want exactly what he's got
And I don't ever mind giving him every bit of my love
And baby you know I've got a lot to give I've got fire in my touch, well there's nothing I won't do
And I bend over backwards just to give it all to you 'Cause there's only one man that can handle all this love
And there's only one man that I want to be with tonight
Now there's only one man that can squeeze me inside (The one man in my life)
And that's you and cutie pie you and you and you
(You and you)
And that's you and you and you and you and you
