

Sweet as Honey

RF7

Check my breath
am I still alive
Out in the open
not afraid to hide
Didn't know love
was a matter of pride
Like a child
I feel good inside
This must be heaven
I'm way to old
Found paradise
like it was foretold
Out of the dust
rose a mountain of gold
Sweet as honey
for me to behold

Sweet as honey, mellow as wine
Drink me down, take your time

In the mirror
I seem wide awake
What's the chance
this could be a mistake
Pulse is racing
like I'm on some drug
No antidote
for this thing called love
Total darkness
is somehow warm
Like I felt
when I was born
She took control
I'm not sure when
Sweet as honey
around every bend
