Tick Tock

Walking On Cars

Arms by my side, heart on my sleeve,
The chandelier falls as I stand underneath,
Wonâ€™t you give it up this time?
Wonâ€™t you give it up to save?
Watch this come alive,
That was yesterdayâ€¦

Tick tock,
Ready,
Holding,
To put hope back on the shelf

This is the last time
I stay up all night,
Forget everything and Iâ€™m starting with you
I love you but I,
I must say goodbye
Forget everything and Iâ€™m staring with you

Where do you run?
What can you lose?
Run from yourself but youâ€™re still stuck with you

Wonâ€™t you give it up this time?
Wonâ€™t you give it up to save?
Watch this come alive,
That was yesterdayâ€¦

Clockâ€™s got his hands in the air as Iâ€™m fallinâ€™
The clockâ€™s got his hands in the air as Iâ€™m calling out
Clockâ€™s got his hands by his sides Iâ€™m still waiting,
Iâ€™m still waiting,
Iâ€™m still waiting

Tick tock,
Ready,
Holding,
To put hope back on the shelf

This is the last time

I stay up all night,
Forget everything and Iâ€™m starting with you
I love you but I,
I must say goodbye
Forget everything and Iâ€™m staring with you

(x4) With you, with you, with you,
Iâ€™m starting with you

(x2) Forget everything and Iâ€™m starting with you

This is the last time
I stay up all night,
Forget everything and Iâ€™m starting with you
I love you but I,
I must say goodbye
Forget everything and Iâ€™m staring with you

(x4) With you, with you, with you,
Iâ€™m starting with you

Tick tock,
Ready,
Holding,
To put hope back on the shelf
