

Who Are They?

Carter Burwell

He wants to cross the ocean*
No matter what it takes
They say, over there
Is were the dreams are made
There he won't have to work as hard
You can make loads of money
no matter who you are
Over there,
He'll live the good life
They say,
Everything's so much easier
But who are they?
To separate, what god gave
Who are they?
to tear us apart, try to down who we are
Who are they?
To separate, what god gave
Who are they?
Telling me, that I can't stay
[*Instrumental:]
She wants to cross the ocean
No matter what it takes
They say, over there
Is were the beautiful things are made
There she won't have to work as hard
They say,
You can make loads of money
Become a movie star
Over there,
She'll live the fine life
And people will treat you so much better
Who are they?
To separate, what god gave
who are they
to tear us apart, try to down who we are
Who are they?
To separate, what god gave
Who are they?
Telling me, that I can't stay

Who are they?
To separate, what god gave
who are they
to tear us apart, try to down who we are
Who are they?
To separate, what god gave
Who are they?
Telling me, that I can't stay
