

No Good Way

Fozzy

I tried it all, from pills to the bottle.
I danced with the dead, don't know why I survived.
Spent days in the dark, aborted in the chamber.
No matter how I try, there's No Good Way to die.Starting fires with gasoline.
Burning out the rest of me.
Take what you want.
In the end we're all suffering.
No matter how we try.
There's No Good Way to die.No Good Way.
No Good Way.
No Good Way.
My bloody knees, I pray for an answer.
Deliver me to the light, to the light.
I leave this cage for one more tomorrow.
It's not my time.
There's No Good Way to die.Starting fires with gasoline.
Burning out the rest of me.
Take what you want.
In the end we're all suffering.
No matter how we try.
There's No Good Way to die.No Good Way.
No Good Way.
No Good Way.
There's No Good Way to die.
No Good Way.
No Good Way.
No Good Way.
There's No Good Way to die.Starting fires with gasoline.
Burning out the rest of me.
Take what you want.
In the end we're all suffering.
No matter how we try.Starting fires with gasoline.
Burning out the rest of me.
Take what you want.
In the end we're all suffering.
No matter how we try.
There's No Good Way to die.No Good Way.
No Good Way.
No Good Way.

There's No Good Way to die.No Good Way.

No Good Way.

No Good Way.

There's No Good Way to die.No Good Way.

No Good Way.

No Good Way.

There's No Good Way to die.No Good Way.

No Good Way.

No Good Way.

There's No Good Way to die.
