

# Learn To Love Again

## Lawson

There's a place we know  
What's cold enough won't grow  
We have seen the dark  
And the dark took its toll

And the journey waits for no one  
If no one breaks the mould  
And our hearts are stronger  
Than we know

That you and I could learn to love again  
After all this time  
Maybe that is how I knew you were the one  
That you could still believe in me again  
And after all our trials  
Maybe that is how I knew you were the one

To awake I know  
We made it through the storm  
And someone saves their sweet embrace  
For you and you alone

That you and I could learn to love again  
After all this time  
Maybe that is how I knew you were the one  
That you could still believe in me again  
And after all our trials  
Maybe that is how I knew you were the one

Silence says to remember  
We remember  
To our souls in the shadow  
In the shadows

That is how I knew you were the one  
And that is how I knew you were the one
