

Set Ourselves Free

Uncle Lucius

It's a choice, every day
Claim what's yours or let it slip away
Got to lead with a heart
Commit to full potential, let the healing start

Look inside, there's a light
Go headlong through the fog while innovation guides
Place it all on the line
Dive in to the depths of boundless might

I am the setting sun
And the dawning of the day
You are a turn of wind
And the sands of time and space
Unbound by old belief
Do we dare face our fears?
Drop all guards
And set ourselves free

To live, is to die, is to be reborn
Glory, glory
To live, is to die, is to be reborn
Glory, glory
Glory, now glory,
Glory, glory now x3

I am the setting sun
And the dawning of the day
You are a turn of wind
And the sands of time and space
Unbound by past belief
Do we dare face our fears?
Drop all guards
And set ourselves free
Set ourselves free x4
