

The Water's Fine

The Family Crest

You say your heart is found
And motion to the sound
You hold yourself against the wake
You say the water's fine Save me from this life I have made There's a hustle and a bustle
In the city tonight and I find
That a feeling it grows
Down from my legs to my spine Save me from this life
Bathe me in the light
Save me from the dark of the day Save me from this life
Bathe me in the light
Save me from the dark of the day You say this life is sound
And move upon the ground
You hold yourself against the waves
You say the water's fine
