This Life

Mandalay

You couldn't even bring yourself to stay, oh noYou had to go, spoil it all
I know you had to go
Now I find these endlessly
Colorblind days to fill
You never will(Take this life)
Take this life
Take it all
In your handsYou were mine
I could smile
You understand, fineAgain, I dream
You come to me
(Come back to me)
And comfort meBut now I dream
Where did this time go?
Where did this time go?
Did your love goI know you have to go
Spoil it all
And now I know
You never will(Take this life)
Take this life
Take it all
In your handsYou were mine
I could smile
You understand, fine(Take this life)
Take this life
Take it all
In your handsYou were mine
I could smile
AgainJust what you said was cold advice
I discovered sticks go with knives
I discovered I could've die in your chains
Still I feel, so won't you stay
Oh, babe(Take this life)
Take this life
Take it all
In your handsYou were mine
I could smile
You understand, fine(Take this life)
Take this life

Take it all
In your handsYou were mine
I could smile
Again
