

# Come On

## Tegan and Sara

You've got your lights turned so they can see you  
The very best of what you've got to offer  
Tell them what your hands were made for  
Tell them who your mouth was made for You've got your profits and your mathematicians  
The vocal fuel of a generation  
Tell me what my hands were made for  
Tell me who my mouth was made for And please don't be mad at me  
You'll get what you ask for  
So, come on, come on, come on  
Come on, come on, come on So very close to what you had expected  
It makes it hard to keep my head up level  
Tell me I'm what your hands were made for  
Tell me I'm who your mouth was made for And if you come down on me  
Well, you'll get what you ask for  
So, come on, come on, come on  
Come on, come on, come on And I, I wanna get myself back high  
I wanna get myself back  
Tonight, tonight, tonight  
Tonight, tonight, tonight  
Na, na, na, night And all of the things that you promised us that you'd be  
Well, now your hands are tired  
But I was nice  
Yeah, I was nice  
But I, I give my life  
To one night, one night, one night Well, I, I  
Well, I, I will not give up  
I will not give up  
I will not give up What do you know?  
What do you know?  
What do you know? Oooh  
What do you know? Oooh Come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on
