

# Thousand Miles Away

Otis Redding

You are thousand miles away  
I miss you darling  
You are thousand miles away  
Sure enough I need you honey  
What's mine, baby is yours  
I want you to have it, honey  
But you are thousand miles away  
I can't give it to you honey  
What's your's I know it's mine  
I want my share, give it to me now  
I'm a thousand miles away  
I can't get it from you, honey

Lord, I'm suffering now, hey  
Thousand miles away, one thousand  
Lord, let me hear from you, honey  
What's mine, baby, is yours  
I want you to get it baby  
But you're thousand miles away, one thousand  
I can't give it to you honey  
Lord, you got me suffering, baby  
Big binoculars can't see you honey  
I don't wanna hear from you  
Don't call me on the phone, baby  
I love you, I wanna see you girl
