Ever She Flows

Treble Charger

The tone you take, I turned off the ring
You mind your dates, I'll fill it in
Please see these once
Please see them in, I'll let aloneEver she flows like a veil undeciphered
It's me who knows by the way, It's my mistake
You'll have to wait, I haven't bothered
To offer up debate, I think that's obviousWe see these once, we see them in
I'm not alone, let's get do this twice
Unlike today, start again
It's what you chose in the end
