Noreaga

Advisory - the following lyrics contain explicit language:

Verse 1: NoreagaMy life is like a movie, ayyo da bad guy lose
good guy win, weak nigga pretend, to be live when he not really

I smoke a foul phillie, write rhymes try to stay illy

I got two seeds, had 'em both in the same month
ya plan it like that but things occur, baby moms hatin' me

I ain't hatin' her, yo, you know what?

Most of the time that's way the go, one minute you high, the next you low

Not a soul love, they just love the doe

Sometimes I think if a nigga wasn't Nore, what

could I have bumped that bitch like I did

and would I get ass as a regular kid, only twenty years

don't understand this shit, nigga fake me, jealous of my manuscript

I, manage to flip, casually rip, for my loyal niggas

fuck that cat's some snitch, I did a bid, came home survival thug

don't come thru so I don't show love, that's how they view me

hatin' me, tryin' to screw me, and your bitches only catch me in ja'causezi's

at some other shows, politickin' with my other pro's

Kickin' back, what?

Callin' up some other hoeHook:In a minute, I won't claim no set

Yo, you can't find me, gotta hit me on the Internet

W-W-dot-Nore, if not call me

I used to dream of, gettin' out of this rough shit

Now it seems I'm trapped inside of thug shit

In a minute, I won't claim no set

Yo, you can't find me, gotta hit me on the Internet

W-W-dot-Nore, if not call me

I used to dream of, gettin' out of this rough shit

Now it seems I'm trapped inside of thug shitVerse 2: NoreagaFor my thug niggas, just livin' they life

drivin' expansive cars, always got one wife

where they could hide the work at, how to eat plus to work that

Most of y'all hoes know y'all not worth that

And ya know me, type a nigga play no D

I'm feelin' like my man Hollywood
Green chronic make me feel good
Total Recall the hood
remember when niggas just stood where they should
Now these niggas actin' outta place, talkin' out they fuckin' face
Screamin' how the real when they the snakes
Yo, this Titanic bullshit, overdose shit, nap shit
48 hours left to clap shit, crack shit, bogard like Bogota
While ya imbosiles still really think y'all real
Just because ya bust a gat don't mean you keepin' it real
Yo, I'm ill wit' the heat, and I'm ill wit' the pill
On the street, or on the mic, dick what you like?
While y'all jealous niggas hatin' me just on spite
I'm like Digital Underground, do what you like
My Cartier's glow like laser's, Fantasia's
At every show what, got y'all hoe's pushin' up Daisy's
N.O.R.E. the way I plan this shit, yeah like Mase said
Phonin' young bitches 'n shitHook
