Stay Gone (Acoustic)

Jimmy Wayne

I've found piece of mind
I'm feeling good again
I'm on the other side
Back among the living
In a cloud in the sky
All my tears have been cried
And I can finally sayBaby, baby, stay, stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's going to be OK
If you just stay goneI still love you
And I will forever
We can't hide the truth
We know each other better
When we try to make it work
We bother end up hurt
And it ain't supposed to be that waySo baby, baby, stay, stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's going to be OK
If you just stay goneWhen we try to make it work
We both end up hurt
Love ain't supposed to be that waySo baby, baby, stay, stay right where you are
I like it this way
It's good for my heart
I haven't felt like this
In God knows how long
I know everything's going to be OK
If you just stay goneI know everything's going to be OK
If you just stay gone
