

Lessons In Love

Tgt

I hope you like the strong types
I'm on my way, it's gonna be crazy
Get lost sometimes with you tonight
I've been waiting so damn long, can't wait to make you love me
I'm too ready so give in to me
I'm committed to perform with you
Look at what you waiting for
And we gonna stretch it out to the limit and have like
I can be your man, giving to your body what you waiting be like
Every time we touch I get lessons in love
I swear every time we touch I'm getting lessons in love
Uh girl keep me warm with your fire
I can be the love for your fire
We gonna let in to all tonight '
I'm too ready so give in to me
I'm committed to perform with you
Look at what you waiting for
And we gonna stretch it out to the limit and have like
I can be your man, giving to your body what you waiting be like
Every time we touch I get lessons in love
I'mma show you things you didn't know
You didn't think you feel like this
I swear every time we touch I'm getting lessons in love
,

Trust me girl it's enough
Get up from me like you ain't be touching no other
,

Watch me 'down like
'gonna be shaking
Finally found the most amazing
And we gonna stretch it out to the limit and have like
I can be your man, giving to your body what you waiting be like
Every time we touch I get lessons in love
Ooh, ooh
I swear every time we touch I get lessons in love
