

# Do You Need My Love

## Weyes Blood

Tired of feeling so bad  
The world that I knew just fell through  
And left me outside  
And we may be blind more than the others  
How it feels so good to feel how I wanna feel  
Ever since I saw those lion eyes  
Those tired feelings hide behind your cigarette nights  
Your love  
Breaking apart inside Do you need me the way I need you?  
Let's be true for a change  
Do you need someone?  
Do you need my love?  
Need my love Tired of feeling so bad  
Giving away everything  
Gonna learn to take the pain  
I know that your love stings  
Passion is the only thing  
Passion must mean everything  
I felt your body scream to be set free  
From the pain of what's gone  
I'll move you along Do you need me the way I need you?  
Let's be true for a change Do you need someone?  
Do you need my love?  
Need my love  
Everyone who knows me  
Knows I'm crazy for loving you, baby  
Do you need me like I need you?  
Tell me what I should do  
Do you need me, need me Do you need me the way I need you?
