

# This Is the Part

## Grandaddy

This is the part that shouldn't had been hard

Where there is peace

You will not find me This is the part

Now let me warm my heart

This won't go smooth

This won't go down with you

Where there was love

Now there some other stuff

Where there is peace

You know I will not be

This is the part

The ending to the stars

Where there was calm

It's only going wrong This is the part

Where I put out my guard

Where there is peace

It's there I will not be

This is the part

So called a broken heart

Put there the phone

There's no one coming home

This is the part

That shouldn't had been hard

Where there is peace

You will not find
