

# Hesitating Beauty

Billy Bragg & Wilco

For your sparkling cocky smile I've walked a million miles  
Begging you to come and wed me in the spring  
Why do you my dear delay  
What makes you laugh and turn away  
You're a hesitating beauty, Nora Lee Well I know that you are itching to get married, Nora Lee  
And I know how I'm twitching for the same thing, Nora Lee  
By the stars and clouds above we could spend our lives in love  
You're a hesitating beauty, Nora Lee We can build a house and home where the flowers come to bloom  
Around our yard I'll nail a fence so high  
That the boys with peeping eyes cannot see that angel face  
My hesitating beauty Nora Lee  
Well I know that you are itching to get married Nora Lee  
And I know how I'm twitching for the same thing Nora Lee  
By the stars and clouds above we can spend our lives in love  
If you quit your hesitating, Nora Lee We can ramble hand in hand across the grasses of our land  
I'll kiss you for each leaf on every tree  
We can bring our kids to play where the dry leaves blow today  
If you quit your hesitating, Nora Lee Well I know that you are itching to get married, Nora Lee  
And I know how I'm twitching for the same thing, Nora Lee  
By the stars and clouds above we could spend our lives in love  
If you quit your hesitating, Nora Lee
