

Infinite Arms

Band of Horses

I had a dream
I had a dream
That I was your neighbor
About to give birth
And then everything
Was really hurt
And I was so lonely
I didn't see It's like
Living in a movie
Twisting the plot
My friends and family
The little things I've got, I've got When my thoughts drift to you I love the morning
I like to listen
To 4am birdies
Begging to feed
Now there's something here before me
A figure, I think
Isn't there a warning
Or something to drink
My god, my god When my thoughts drift to you As mended bones
When storms approach
Ever so slowly
Out on the sea there's an
Animal below me
Lack of control
Others came before me
Others to come, to come When my thoughts drift to you
