

Love Falling Like Rain

Words and music composed by

Well here she comes again “ that girl seems so fine to me
Watch her move with her body and pout
Yeah she’ll take you for a fool - if you don’t watch out
She’ll slowly bring you down - and you feel what its all about

Chorus

When your love is falling like rain
Yes your love is falling like rain

Your on a sea of sand as she takes you be the hand
She drops down to her knees and blows sweet kisses to me
In this mad life that I know “ there seems no victory or no end
Down the road we go - together deep and low

Chorus

And your love is like the falling rain
Yeah your love is like the falling rain
Same Same

Instrumental

In a tidal wave of pain - I see you face again
The heavens opened up and let it all go
It’s for them to understand “ the emptiness of man
And for those who don’t understand “ love is the only way

Chorus

Your love is falling like rain
Same Same
Yeah your love is falling like rain
Same Same

Repeat

Till end
