

Waste of Breath

[DIIV](#)

It's no good it would be a waste of breath to tell
a man who believes in me that he's got
something better to do

It's no good it would be a waste of breath to tell
a man that he's got something better to do

It's no good it would be a waste of breath to tell
the man in me that he's got something better to do

It's no good it would be a waste of breath to tell
a man that he's got something better to do
