Where Is the Heaven

ABC

Vandals in ermine
Rip city skylines
Dodge truth and virtue
With slick city bylinesA paragon of virtue
Until they hurt you
In power and in status
We know they hate usSo where is the heaven
And where is the love?
Where the hell is the heaven?
You're so proud ofPower is preaching
The virtues of poverty
Poor are left feeding
On cruel comedy, sad laughterRescue us all now
From fumes that choke us
Shift then these sad lives
Into sweet focusSo where is the heaven
And where is the love?
Where the hell is the heaven?
That you boast ofPrestige it sits high
On mammons alter
Porsche hungry pinheads
On champagne and oystersHead full of hollow thoughts
Handful of sushi
Plug into Dallas babe
Plug into dynastySo where is the heaven
And where is the love?
Where the hell is the heaven?
You're so proud ofNow I am lovingNow I am loving
Where once I was hating
Leading a good life
Stopped paging SatanPlayed devils advocate
So many times
Lived in the shadows
But the sun will shine, shine, shineSo where is the heaven
And where is the love?
Where the hell is the heaven?
You're so proud ofAnd where is the kingdom?
You say we squander?
Where the hell is the heaven?

Must we wait much longer?So where is the heaven
And where is the love?
Where the hell is the heaven?
You're so proud ofWhere the hell is the heaven?
