

You Are The Judas Of The Cheerleading Squad

House Of Heroes

Find the bolt fused in the bone
Grinding, pulling
All this machinery was never gonna let you go
Binding, owning
Break to heal and heal he will
Fragile growing
He learned to hate, he learned to kill
And now he'll learn to feel
He'll learn to heal

Take these wings of iron
Off my back, out of my heart
Oh, forged in the fire and the fire, it burns in me
Oh, forged in the fire and the fire, it burns in me

Get out your ghosts
Bet you had it coming
Oh, and teach them to sing
Bet you had it coming
Oh, fire is burning you clean
Bet you had it coming
And when it rains
Bet you had it coming
Live in the stream
Bet you had it coming
Every drop that comes down from above
Washes you clean
Bet you had it coming

Take these wings of iron
Off my back, out of my heart
Oh, forged in the fire and the fire, it burns in me

I've slept in the belly of the beast
(Take these wings of iron
Off my back, out of my heart)
Now I'll sleep under your wings
(Oh, forged in the fire and the fire, it burns in me)
Oh, forged in the fire and the fire, it burns in me

I've slept in the belly of the beast
(Take these wings of iron
Off my back, out of my heart)
Now I'll sleep under your wings
I'm forged in the fire and the fire, it burns in me

I've slept in the belly of the beast
(Take these wings of iron
Off my back, out of my heart)
Now I'll sleep under your wings
I'm forged in the fire and the fire, it burns in me
