

Room With a View

[Carolyn Dawn Johnson](#)

They gave you a corner room on the fifth floor
The city lights were like candy to a kid in a store
Like a king you'd lay in your bed so state fully
So thankful they gave you a room with scenery You always were so healthy, so full of life
So seeing you so helpless just didn't seem right
How you kept your head so high I'll never know
I guess you knew you had a better place to go
Now You've got a room with a view
A window to the world
You always had your sights set high
And now that you're gone
Your memory lives on
And I see you smiling in my mind
With angels as visitors dropping by
Your room with a view I'll always miss you
I'll always feel the loss
I have to remind myself that you're better off
I gotta believe even through these tears of mine
Wherever you are there's a sun that always shines And you've got a room with a view
A window to the world
You always had your sights set high
And now that you're gone
Your memory lives on
And I see you smiling in my mind
With angels as visitors dropping by
Your room with a view With angels as visitors dropping by
Your room with a view
