You Are My Strength

Deitrick Haddon

I don't know
I don't know
Don't know
It seem like I had to lose in order to win
And when they walked out on me, it's when Your love came in
And when I feel like dyin', You made me feel better
You took me by the hand
You told me we could make it through this together
You were my strength, You were my strength
When I was exhausted
You were my strength, You were my strength
You were my strength, helped me climb the mountain
You were my
My body, my sword, my shield, my joy, my life
Your love so real
You were my strength, You were my strength
You were my
It's amazin' to me when I look back and see, whoa, whoa
How I made it over, then I thought it was over
And when my heart was shattered into a million pieces
Your love put me back together again
You know just what I needed
You were my strength, You were my strength
When I was exhausted
You were my strength, You were my strength
You were my strength, you put me by the mountain
You were my
My heart, my sword, my shield, my joy, my life
Your love so real
You were my strength, You were my strength
You were my
That is why I love You
That is why I love You

Took me back is why I love You
That is why I love You
You were my strength, You were my strength
When I was exhausted, yeah
You were my strength, You were my strength

You were my strength, helped me climb the mountain
You were my
My body, my soul, my shield, my joy, my life
Your love so real
You were my strength, You were my strength
You were my
You were my strength
You were my strength when I was exhausted
You were my strength
You were my strength, helped me climb the mountain
That is why I love You
That is why I love You
Took me back that is why I love You
That is why I love
You were my strength
You were my strength
I would never forget how You were
You were my strength
You were my strength
You were my strength
You were my strength
You were my
My heart, my soul, my shield, my joy, my life
Your love so real
You were my strength, You were my strength
You were my
