

# Set the World on Fire

## Klaatu

On my own  
in a city unknown  
Streetlights all go passin' by  
I sit back  
and i watch it unfold  
Don't matter where I'm at cuz I'm alone  
Streetlights all shine so bright  
out here in the neon night  
Stars fade and disappear and i wish  
you were here  
Cuz I'm Nothin'  
If I'm not with you  
I might as well be in my grave  
and I'm sick of countin' all the days  
Nothin' Nothin' Nothin' Oh!  
Well it's a neon world  
that I'm livin' in  
You're at home with your jealousy  
Just a few more stops  
Til I'm with you again  
But it won't ever ever be the same  
Streetlights all shine so bright  
out here in the neon night  
Stars fade and disappear and i wish  
you were here  
Cuz I'm Nothin'  
If I'm not with you  
I might as well be in my grave  
and I'm sick of countin' all the days  
Nothin' Nothin' Nothin' Oh!  
Streetlights all shine so bright  
out here in the neon night  
Stars fade and disappear and i wish  
you were here  
Cuz I'm Nothin'  
If I'm not with you  
I might as well be in my grave  
and I'm sick of countin' all the days  
Nothin' Nothin' Nothin' Oh!  
Cuz I'm Nothin'  
If I'm not with you  
I might as well be in my grave  
and I'm sick of countin' all the days  
Nothin' Nothin' Nothin' Oh!
